House# 8, Road # 2, Block -A, Satmosjid Housing, Mohammadpur, Dhaka-1207

PROFESSIONAL SUMMARY

Full-Stack Developer with professional experience building production web applications and AI-powered automation systems using Next.js, React.js, AngularJS, Node.js, RESTful APIs, Prisma, MSSQL, PostgreSQL, Firebase, and Python. Experienced in scalable frontend/backend development, financial and workflow systems, real-time communication, API integration, LLM integration, prompt engineering, content and campaign automation, AI-driven landing-page generation, scheduled workflows, and database optimization. Strong focus on translating business requirements into reliable, maintainable, production-ready software.

CORE COMPETENCIES

Full-Stack Web Development • REST API Development • Next.js & React.js • Node.js & Express.js • AngularJS • Database Design & Optimization • MSSQL / PostgreSQL / MySQL • Prisma • AI & LLM Integration • Prompt Engineering • Workflow Automation • WebSocket / Real-Time Systems • Third-Party API Integration • Role-Based Access Control • Responsive UI Development

PROFESSIONAL EXPERIENCE

Loosely Coupled Technologies | Software Developer | November 2024 – Present

- Engineered borrower and admin portals for Suzuki Digital Higher Purchase using Next.js, Node.js, Prisma, and MSSQL, implementing hire-purchase workflows and financial tracking.
- Developed Sharedtoday.com using Next.js and Node.js, integrating Python-based AI models for sentiment analysis, trend prediction, and social insights.
- Built Ezassist POS Solution using AngularJS and Node.js with WebSocket-based real-time inventory updates.
- Designed AI-powered content automation workflows that generate content from user prompts and automatically publish it across configured platforms.
- Built AI campaign generation and orchestration workflows with rule-based monitoring and automated actions.
- Developed an AI-driven landing page generator that creates responsive pages from prompts and deploys them with unique live URLs.
- Implemented scheduled AI workflows for content generation, publishing, campaign execution, and hourly monitoring.
- Applied prompt engineering and integrated AI services with web applications and backend APIs to automate business processes.
- Optimized database queries and CRUD operations to improve application performance.
- Implemented APIs to integrate with external services.

THCNext IT Solution | Founder & Software Engineer | January 2025 – Present

- Founded and lead a software development company focused on full-stack development and modern web technologies.
- Led technical architecture and technology decisions for client-facing applications.
- Managed development of A.M. & Associates, DUS App, and DUS Financial web applications.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C, C++, PHP, HTML5, CSS3

Frontend: Next.js, React.js, AngularJS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI, RESTful APIs, Prisma, WebSocket

Databases: MSSQL, MySQL, PostgreSQL, Firebase, SQL

AI & Automation: Generative AI, Prompt Engineering, AI Workers, LLM Integration, Content Generation, Campaign Automation, Landing Page Generation, Scheduled Jobs, Workflow Monitoring

Tools: Git, GitHub, Postman, VS Code, PyCharm, Google Colab, ChatGPT, Claude, Google Gemini, GitHub Copilot, Codex

EDUCATION

- University of Information Technology and Sciences | Bachelor of Science in Information Technology | January 2024 | CGPA: 3.71 / 4.00

- Tejgaon College | Higher Secondary Certificate (HSC), Dhaka Board | 2019 | GPA: 3.50 / 5.00
- Kanchanpur Haor High School | Secondary Certificate (SSC), Dhaka Board | 2017 | GPA: 4.82 / 5.00

SELECTED PROJECTS

Suzuki Digital Higher Purchase | Next.js, Node.js, Prisma, MSSQL

- Developed borrower/admin portals with multi-stage approval workflows and financial tracking.
- Integrated Dana Score API for credit scoring and risk assessment.
- Implemented MDM and VTS APIs for asset monitoring and security.

Sharedtoday.com | Next.js, Node.js, MSSQL, Python

- Engineered a social data analysis platform.
- Integrated Python AI models for sentiment analysis and social trend forecasting.
- Managed large datasets in MSSQL and optimized data retrieval.

Ezassist.me Website | AngularJS, Node.js, Express, HTML5, Bootstrap, MSSQL

- Built AngularJS single-page frontend.
- Developed RESTful Node.js/Express API with parameterized MSSQL queries.
- Created responsive Bootstrap UI.

DUS App — Patient Management Web Application | Next.js, Tailwind CSS, Firebase, Cloudinary

- Designed secure patient information management with role-based permissions.
- Implemented hospital-wise reporting dashboards.
- Integrated Cloudinary and Firebase.

DUS Financial — Financial Management Web Application | Next.js, Tailwind CSS, Firebase

- Designed financial management application and date-range reports.
- Implemented analytics dashboard and real-time synchronization.

TechNex IT Solution Website | React.js, Next.js, Tailwind CSS

- Built responsive corporate website using SSR/SSG.
- Built reusable components and optimized assets.

A. M. & Associates — Architecture Studio Website | Next.js, Tailwind CSS, Supabase, Cloudinary, Google Maps

- Developed responsive architecture studio website and project archive.
- Integrated Supabase, Cloudinary, and Google Maps.

ACHIEVEMENTS

- Champion — Intra University Programming Contest 2022
- 14th — Solo Intra University Victory Day Programming Contest 2022

SOCIAL ENGAGEMENTS

- UITS IT Club, Social Awareness & Development Wing (2022–2023)
