📍 House# 4, Road # 4, Block -B, Chand Uddan, Mohammadpur, Dhaka-1207

A highly motivated and dedicated software developer with a strong foundation in Information Technology, specializing in full-stack web development and software engineering. Proven ability to thrive in collaborative team environments and contribute effectively to complex projects. Known for a creative approach to problem-solving, strong analytical skills, and a commitment to continuous learning and improvement. Passionate about delivering high-quality software products and driving innovation through a meticulous, results-oriented work ethic.

Experience

Loosely Coupled Technologies | looselycoupled.org

November 2024 - Present

Software Developer

- **Suzuki Digital Higher Purchase:** Engineered borrower and admin portals using **Next.js, Node.js** and **Prisma**; implemented complex hire-purchase logic with **MSSQL** for secure financial tracking.
- **Sharedtoday.com:** Developed a social data analysis platform using **Next.js** and **Node.js**, integrating **AI/Python models** for trend prediction and social insights.
- **Ezassist POS Solution:** Built a robust Point of Sale system using **AngularJS** and **Node.js**, focusing on high-speed transaction processing and **WebSocket** for real-time inventory updates.
- Collaborated with other software developers on design, development and testing of programs.
- Designed and coded new software or modified existing software to add new features.
- Optimized database queries and CRUD operations, improving application performance and reducing response times.
- Implemented APIs to integrate with external services and expand application functionality.
- Adapted to new technologies and project requirements quickly, demonstrating strong learning and problem-solving skills.

THCNext IT Solution

January 2025 - Present

Founder & Software Engineer

Founded and leading software development company providing IT solutions and development services

- Established company with a focus on full-stack development and modern web technologies.
- Led technical architecture and technology decisions for client projects.
- Managed development of A.M. & Associates — an architecture website with admin and client portals.
- Managed development of DUS App — a Patient Management Web Application with client portals.
- Managed development of DUS Financial — a Financial Management Web Application with admin portals.

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, C, C++, PHP, HTML, CSS.
- **Web Development:** Next.js, React.js, AngularJS, FastAPI, Tailwind CSS, Bootstrap, RESTful APIs
- **Backend Development:** Node.js, FastAPI, Prisma, WebSocket (Real-time Communication)
- **Database Management:** MSSQL, MySQL, PostgreSQL, SQL (CRUD operations, aggregation, date/string/numeric functions)
- **Tools & Platforms:** Git & GitHub, Postman, Google Colab, LaTeX, Code::Blocks, Figma, Canva, MS Office Suite (Excel, Word, PowerPoint)

- **Development Environments:** Visual Studio Code, PyCharm
- **Other Skills:** Responsive Web Design, API Integration, Version Control (Git)
- **AI & Productivity:** Prompt Engineering, ChatGPT, Claude, Google Gemini, GitHub Copilot, Codex

Education

University of Information Technology and Sciences

Bachelor of Science in Information Technology (CGPA: 3.71 / 4.00)

January 2024

Baridhara, Dhaka, Bangladesh

Tejgaon College

Higher Secondary Certificate (HSC), Dhaka Board (GPA: 3.50 / 5.00)

2019

Dhaka, Bangladesh

Kanchanpur Haor High School

Secondary Certificate (SSC), Dhaka Board (GPA: 4.82 / 5.00)

2017

Kishoreganj, Dhaka, Bangladesh

Projects

Suzuki Digital Higher Purchase | Next.js, Node.js, MSSQL

- Developed comprehensive borrower and admin portals using **Next.js**, **Node.js**, and **Prisma** with an **MSSQL** backend.
- Integrated **Dana Score API** to automate credit scoring and risk assessment for higher purchase applicants.
- Implemented **Mobile Device Management (MDM)** and **Vehicle Tracking System (VTS)** APIs for real-time asset monitoring and security.
- Built complex hire-purchase logic to handle multi-stage approval workflows and financial tracking.

Sharedtoday.com | Next.js, Node.js, MSSQL, Python

- Engineered a social data analysis platform using **Next.js** for high-performance data rendering.
- Integrated **Python-based AI models** to perform sentiment analysis and social trend forecasting.
- Managed large-scale datasets using **MSSQL** and optimized data retrieval pipelines.

Ezassist.me Web site | Angular.js, HTML5, Bootstrap, MSSQL

- Built single-page frontend using AngularJS with modular controllers and services for cleaner separation of concerns.
- Developed a RESTful API (Node.js + Express) that communicates with MSSQL using parameterized queries to prevent SQL injection.
- Created a responsive UI using Bootstrap to ensure great experience on mobile and desktop.

dus-app — Patient Management Web Application | Next.js, Tailwind CSS, Firebase, Cloudinary

- **Tech stack:** Next.js, Tailwind CSS, Firebase (database & hosting), Cloudinary (image storage)
- Designed to store and manage patient information with secure access and role-based permissions.
- Implemented hospital-wise patient count and reporting dashboard for quick insights.
- Integrated Cloudinary for secure patient document and image uploads with optimized delivery.
- Deployed to Firebase Hosting with real-time synchronization via Firebase Realtime Database.

dus-financial — Financial Management Web Application | Next.js, Tailwind CSS, Firebase

- **Tech stack:** Next.js, Tailwind CSS, Firebase (database & hosting).
- Designed to manage organization finances statement.

- Generates **financial statement reports** based on custom date ranges.
- Features an **analytics dashboard** for clear visual insights into financial data.
- Implements real-time data synchronization with Firebase for up-to-date records and reporting.

TechNex IT Solution Website | *React.js, Next.js, Tailwind CSS*

- Designed and engineered a high-performance corporate website featuring a modern, responsive layout and fluid UI transitions.
- Implemented **Server-Side Rendering (SSR)** and **Static Site Generation (SSG)** using **Next.js** to ensure superior loading speeds and optimal SEO performance.
- Built a highly reusable component library with **Tailwind CSS**, ensuring design consistency across all pages while reducing CSS bundle size.
- Optimized asset delivery by utilizing advanced image compression and lazy loading techniques to improve Core Web Vitals.

A. M. & Associates - Architecture Studio Website | *Next.js, Tailwind CSS, Supabase, Cloudinary, Google Maps*

- Tech stack: Next.js (frontend), Tailwind CSS (responsive UI), Supabase (backend/database), Cloudinary (image management), Google Maps (location integration).
- Developed a professional architecture studio website to showcase projects, design process, studio profile, and contact information.
- Implemented a structured project archive and content sections for selected works, process storytelling, and team/studio presentation.
- Built a responsive, visually polished user interface using Tailwind CSS for a smooth experience across desktop and mobile devices.
- Integrated Supabase for scalable data/content management and Cloudinary for efficient media storage and delivery.
- Added a clear contact experience with studio details and Google Maps integration for easier client communication and location access.

Java MCQ Quiz App | *Java, Java AWT*

- Developed a desktop-based multiple-choice quiz application for conducting MCQ tests.
- Implemented question navigation, answer selection, and scoring system.
- Designed a simple, user-friendly interface using Java AWT components.
- Provided instant score display upon quiz completion

Achievements

- Champion at Intra University Programming Contest 2022 | *Bangladesh 2022*
- 14th at Solo Intra University Victory Day Programming Contest 2022 | *Bangladesh 2022*

Social Engagements

Club Member: at UITS IT Club, Social Awareness & Development wing (2022-2023)
